

IN THE CLAIMS:

Please cancel claims 1-65, without prejudice.

Add new Claims 61-65.

1-60. (cancelled).

61. (Currently pending) A method for inducing an immune response to a flaviviral antigen in a subject comprising delivering a vaccine expressing the flaviviral antigen to a subject's skin using a device that targets the intradermal compartment of the subject's skin.

62. (Currently pending) The method of claim 61, wherein the device comprises at least one microneedle.

63. (Currently pending) The method of claim 61, wherein the subject is human.

64. (Currently pending) A kit for use in inducing an immune response to a flaviviral antigen in a subject, said kit comprising: (a) a vaccine expressing the flaviviral antigen; and (b) a device that targets the intradermal compartment of the subject's skin.

65. (Currently pending) The kit of claim 65, wherein the device comprises at least one microneedle.
